## Editorial

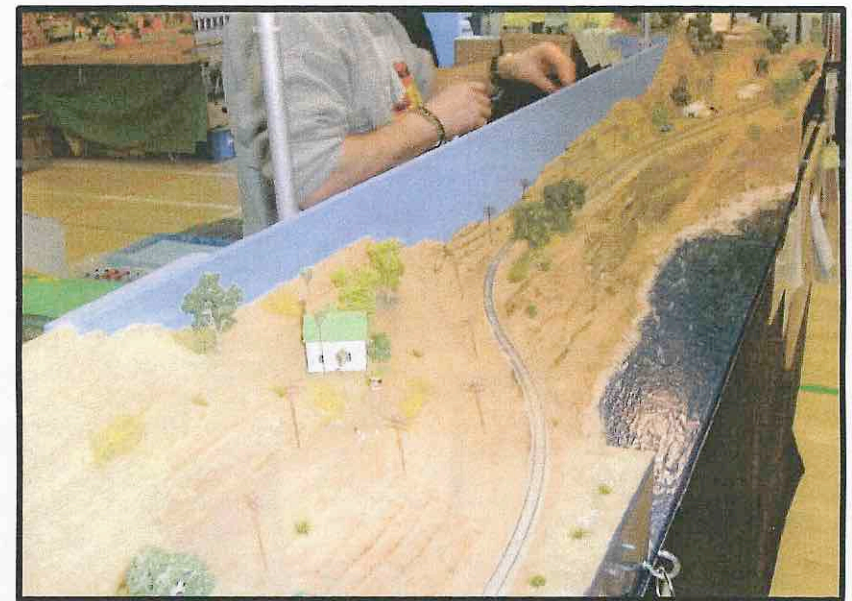

This is intended to be a 'Snapshot' of our excellent exhibition, I just took photographs as and when I could, whilst running my own Lego layout. I hope I have at least captured a small flavour of what actually happened. However, I could not get everyone at their particularly layouts and it was impossible to include every single person, because there were some many members, doing so many different jobs. We had over 900 visitors through the door and we also collected £52 – 13 on the 'Drive-a-train' and £65 – 30 on 'Underground Ernie' which has been rounded up by the club to £150 and donated to Willen Hospice. We must say a big 'Well done and thank you' to Gareth, and every single member, who helped in whatever way during the show. In my opinion, I think it was a brilliant performance by everyone concerned, certainly all members were a credit to the club. John.

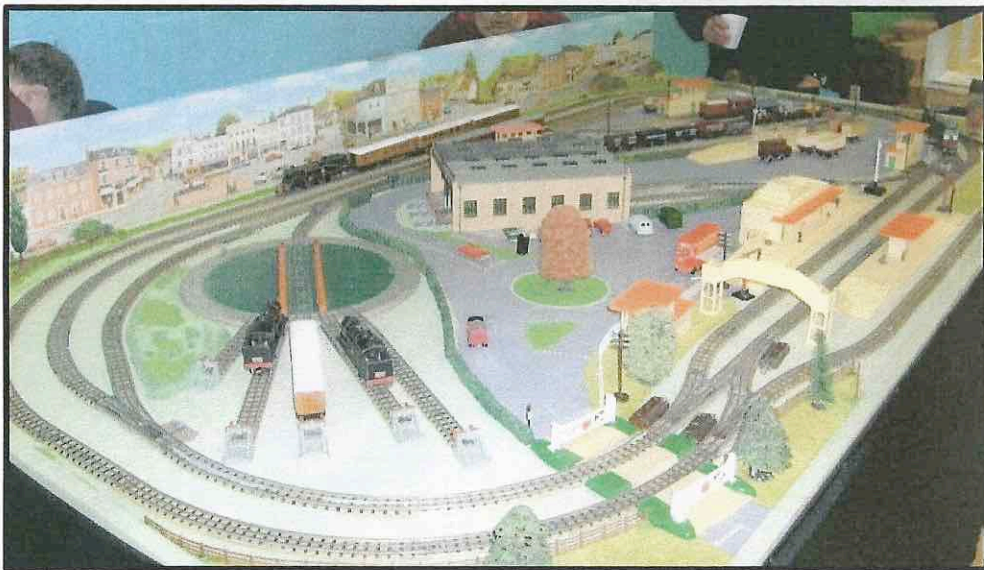

*'Setting up' on the Friday evening.*
